25X1

Mr. Wisner (Continued):

b. Noted a paper on Iran had been prepared as directed by the DCI, however, he did not believe as presently written it was acceptable for dissemination outside the Agency. The Director undertook to review this paper and approved Mr. Amory's suggestion that a copy be sent to ONE since the Board of National Estimates is in the process of preparing an estimate on this area. The Director noted his concern over the fact that there was no established procedure whereby papers prepared on "potential trouble spots" could be made available to the proper officials, and after some discussion it was agreed that this could be overcome by providing such papers direct to the Secretaries of State, Defense and Mr. Cutler with a copy being furnished Mr. Amory for his use on the Planning Board level. It was also agreed that the above-mentioned DD/P paper would be handled in this manner.

25X1

Mr. Kirkpatrick:

a. Reported that Senator Byrd was going to Europe in place of Senator Saltonstall and recommended that he receive a briefing. The Director approved.
